PROJECTS

1. FREE ENERGY GENERATOR:

The main purpose of this project is to convert mechanical energy into electrical energy using magnets, cd, screws etc.,

2. IR REMOTE USING ARDUINO:

Infrared remote control switches are used to control multiple things like, thyristor power control, TVs, video games, Space related equipments (NASA), etc.

3. ARDUINO BASED FIRE DETECTION AND CONTROL SYSTEM:

Here we used the flame sensor to detect the presence of a fire. The sensor sends the signal to the Arduino uno . The use of a flame sensor in this project ensures that the fire alarm system is able to detect fires at an early stage . The buzzer is used to produce an audible alarm when the flame sensor detects a fire.
